Contract Asset Charges: CACs are calculated based on the total assets in the Plan and the actual amount deducted from, or credited to, a participant's account is based on the total account balance for the Plan. These charges may be used to subsidize costs for plan-related recordkeeping, administration, payment to financial advisors, and other retirement plan services that would otherwise be charged separately.

The annual CAC percentage is assessed on a Monthly basis. As of April 15, 2017, the annual CAC percentage was 0.00% based on the total assets in the Plan as of the date shown above. As the value of the assets in the Plan change, the CAC may decrease or increase on a Monthly basis according to the rate schedule in the Contract anywhere between 0.00% - 2.00%. For specific information, please contact your Plan Administrator.

Surrender Charges: Depending on the specific underwriting of the Contract, upon total or partial discontinuance of the Contract, an asset-based surrender/discontinuance charge may apply for a limited number of deposit years.
