FFG to cater Ethiopian's Chicago route

By Rachel Debling

As of June 11, Flying Food Group (FFG) is catering Ethiopian Airlines' new three-times-weekly direct service between O'Hare International Airport and Addis Ababa Bole International Airport. This new route marks the first direct flights offered between Chicago and Africa.

The airline has been a customer of FFG since 2016 and is also serviced by the caterer at EWR, IAD and LAX.

Nicolas Rondeau, Executive VP, Airline Sales for FFG, noted in a press release: "When a current customer chooses FFG to cater a new route, it affirms the quality of the products and service that we consistently deliver."
